### PURPOSE:

A TPL Referendum would provide recommendations on public funding measures available and strategies to enact such measures. That would include understanding the public's priorities and attitudes concerning land preservation, water quality and natural areas-including parks, trails, and fish and wildlife habitat-and how the public would respond to different methods of presenting those issues.

This request does not in any way commit public funds to the efforts of The Trust for Public Land or The Nature Conservancy, nor does it require public disclosure of any confidential information of either organization. Information provided to the County will be public record as a matter of law.

This request will continue in effect for any advice offered or presentations submitted for the use of this body related to such matters. In addition, this opportunity will continue availability to provide technical advice and assistance in this area and on related matters in the future.

**NEED/IMPACT:**

This item will provide particular focus on park equity, climate resilience and health outcomes and interests of the County and its taxpayers.

**FISCAL IMPACT:**

Note the cost of the item(s) - if any; also note the fiscal year budget impact to include funding source.

**RECOMMENDATION:**

Approve to acceptance of the technical assistance and authorize the Chief Executive Officer, or his designee, to execute all necessary documents.
