PURPOSE:

Awarded by the Board of Commissioners (BOC) on April 28, 2020 to two (2) vendors for an amount not to exceed of \$4,900,000.00. On November 8, 2022, the BOC approved an increase in funding to Contract No. 1208627 for an amount not to exceed \$2,450,000.00. These contracts consist of providing construction management services for various gravity sewer collection system rehabilitation and replacement projects. This will include but is not limited to the following activities: pre-construction services, construction inspection services, management of meetings, production of progress reports, provision of on-site field inspectors to monitor contractor work and will require full-time dedication of the construction management teams.

Additional contractor GSSR crews are required due to the increased Consent Decree work and capacity development program. This request, to increase contract funds and term through December 31, 2025, will allow the County to address the ongoing need for construction management services associated with the CD-GSRR construction work and maintaining the County's compliance with the Consent Decree.
