NEED/IMPACT:

On June 15, 2020, the Governing Authority of DeKalb County passed a resolution (2020-0673) declaring racism as a public health crisis. Under this resolution, the County has committed to progress as an equity and justice-oriented organization and support, promote, and advocate for policies that improve health in communities of color. With regard to equity, the resolution also states that the County will promote equity through all policies approved by the Governing Authority and enhance educational efforts aimed at addressing racism and how it affects the delivery of human and social services, economic development and public safety. Finally, the resolution furthers the County's commitment to identify clear goals and objectives, including periodic reports to the Governing Authority, to assess progress and capitalize on opportunities to further advance racial equity. The proposed Comprehensive Equity Strategy is the next step in that process.
